

2002 Ninth Biennial Conference

Sponsored by

The Society for the Advancement of Modeling and Role-Modeling

Building, Applying and Disseminating Holistic Nursing Knowledge Within the Context of Modeling and Role-Modeling, A Theory and Paradigm for Nursing

April 4-7, 2002

Buckner Retreat and Conference Center

Marble Falls Texas

Retreat Goals

This retreat provides opportunities for nurses interested in the development, application, and dissemination of holistic nursing knowledge within the context of the nursing theory and paradigm, Modeling and Role-Modeling (MRM). Concepts such as eudaemonistic health, self-care resources, affiliated-individuation, spiritual well-being, environment, energy fields, growth, healing and facilitating the healing process will provide the bases for the symposia, brainstorming sessions and the Delphi Study. Concepts key to further development and application of the MRM theory and paradigm will be explored. A short course for novices in MRM will be presented prior to the retreat. CEUs will be available.

Short Course Behavioral Objectives

1. State four philosophical constructs in MRM.
2. State the three sources of information relevant to modeling the client's world.
3. List the categories for data collection using the MRM framework.
4. List four health strategies used in holistic nursing.

Retreat Behavioral Objectives

1. State four constructs in MRM that embrace the holistic nursing paradigm.
2. List two areas of study that will expand holistic nursing knowledge.
3. List three SAMRM goals for knowledge building.
4. List three SAMRM goals for knowledge disseminating.
5. State two personal goals for knowledge dissemination.

Planning committee: Margaret Erickson, Helen Erickson, Judi Hertz, Betty Jensen, Carolyn Kinney
